DETAILED ACTION

Response to Arguments

Applicant's arguments, filed 7/19/06, with respect to USC 112 1st have been fully considered and are persuasive. The rejection of claim 1 has been withdrawn.

Applicant's arguments, filed 7/19/06, with respect to USC 103 have been fully considered and are persuasive. The rejections of independent claims 1, 11, 12, 18, 19, and 25 appear to overcome the current art of record.

It appears that the independent claims are allowable over the current art of record if the USC 112 rejections below are overcome.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 1, 11, 12, 18, 19, and 25 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one

Art Unit: 2134

skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

As per claims 1, 11, 12, 18, 19, and 25 support for the recitation of “placing an order for the encrypted document” and similar recitations cannot be found in the instant specification. The documents stored on the server are encrypted after being ordered. The Server only receives the key from the printer after the order has been placed. The applicant only needs to remove the word “encrypted” in select limitations to overcome this rejection. All claims dependent on rejected independent claims are also rejected.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 11, 12, 18, 19, and 25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear if the applicant actually intended “wherein the server times out” or if the applicant wanted to state “if the server times out”. If the applicant wished to state “if the server times out”, which is what the examiner believes was the intent, then the applicant will need an additional statement to the effect “if the server does not time out”.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
